- Optional foam rollers for slick pool surfaces

REVIEWS

"A fantastic pool cleaner, does what it says on the tin, and far better value than some others on the market."

"Works like a dream, better than the more expensive one that just packed up. Highly recommended this product."

★ Trustpilot

TECHNICAL DATA

- Maximum depth of pool 2.5m
- Minimum water temperature 12°C
- Requires pH balance of around 7.2
- Cable length – 18m (15m + 3m)
- Transformer voltage 22V DC
- Power consumption – less than 100W
- Dimensions – 41cm x 37cm x 34cm
- Weight 9.2 Kg

APPLICATIONS

Suitable for in-ground and framed above-ground pools up to 11m long, cleans and removes dirt and debris from floor, walls and waterline.

Four unique side brushes clean right to the edges of the floor, while patented Focus Flow provides concentrated suction power.

Floating cable box featuring anti-twist connections and status LEDs, select between full three hour cycle or one hour quick clean.

Top lid and removable basket allow simple emptying of dirt and rinsing of filters after every cleaning cycle.

**Not suitable for painted pool surfaces*
