TRADITION AND MODERNITY IN HARMONY

The **Onyxia Barrel** is an outdoor sauna that combines tradition and modernity, ideal for an authentic and immersive experience. **Crafted from ThermoWood® wood** for exceptional durability, it features a sleek black finish and **half-moon window** offering a panoramic view.

Panoramic. Its spacious interior includes **two deep benches facing each other**, perfect for relaxing moments. Equipped according to your wishes, it is possible to install either an electric or wood-burning stove.

Enjoy the panorama

Bandeau LED

TERRACE

Enjoy a relaxation area to take a break during your wellness sessions.

FOR EVEN MORE AUTHENTICITY

Possibility of installing a wood-burning stove. This installation will require a cutout in the upper part of the sauna.

Harvia compatible wood stove

? ZOOM ON THERMOWOOD® WOOD

ThermoWood® is a high-temperature treated wood, offering durability, strength, and stability. This natural, **chemical-free process** reduces its moisture content and protects it from climatic variations, **humidity, and insects**. Ideal for outdoor use, it combines a **warm aesthetic with longevity**, perfect for high-end saunas.
