STRUCTURE

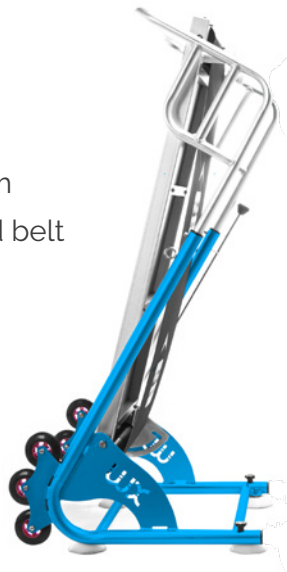

AQUA WALK

New in 2019, the AQUAJOGG AIR treadmill is the first equipment of its kind using an anodized aluminium structure and removable handlebars. Work out at muscle strengthening at your own pace or enjoy a cardio or reeducation session in total safety thanks to excellent stability. The AquaJogg Air is designed for daily and intensive use in group classes or individual sessions. It can be used barefoot. Its innovative folding capacity makes it a particularly compact equipment. Easily slide the AquaJogg Air without marking the floor thanks to its silicone wheels.
